

The Lakes

The Portfolio Home Process

We are so glad that you are interested in building a Portfolio home by Welsh Custom Homes in Lakes and Streams. We believe that we have made this process as easy as possible for everyone involved.

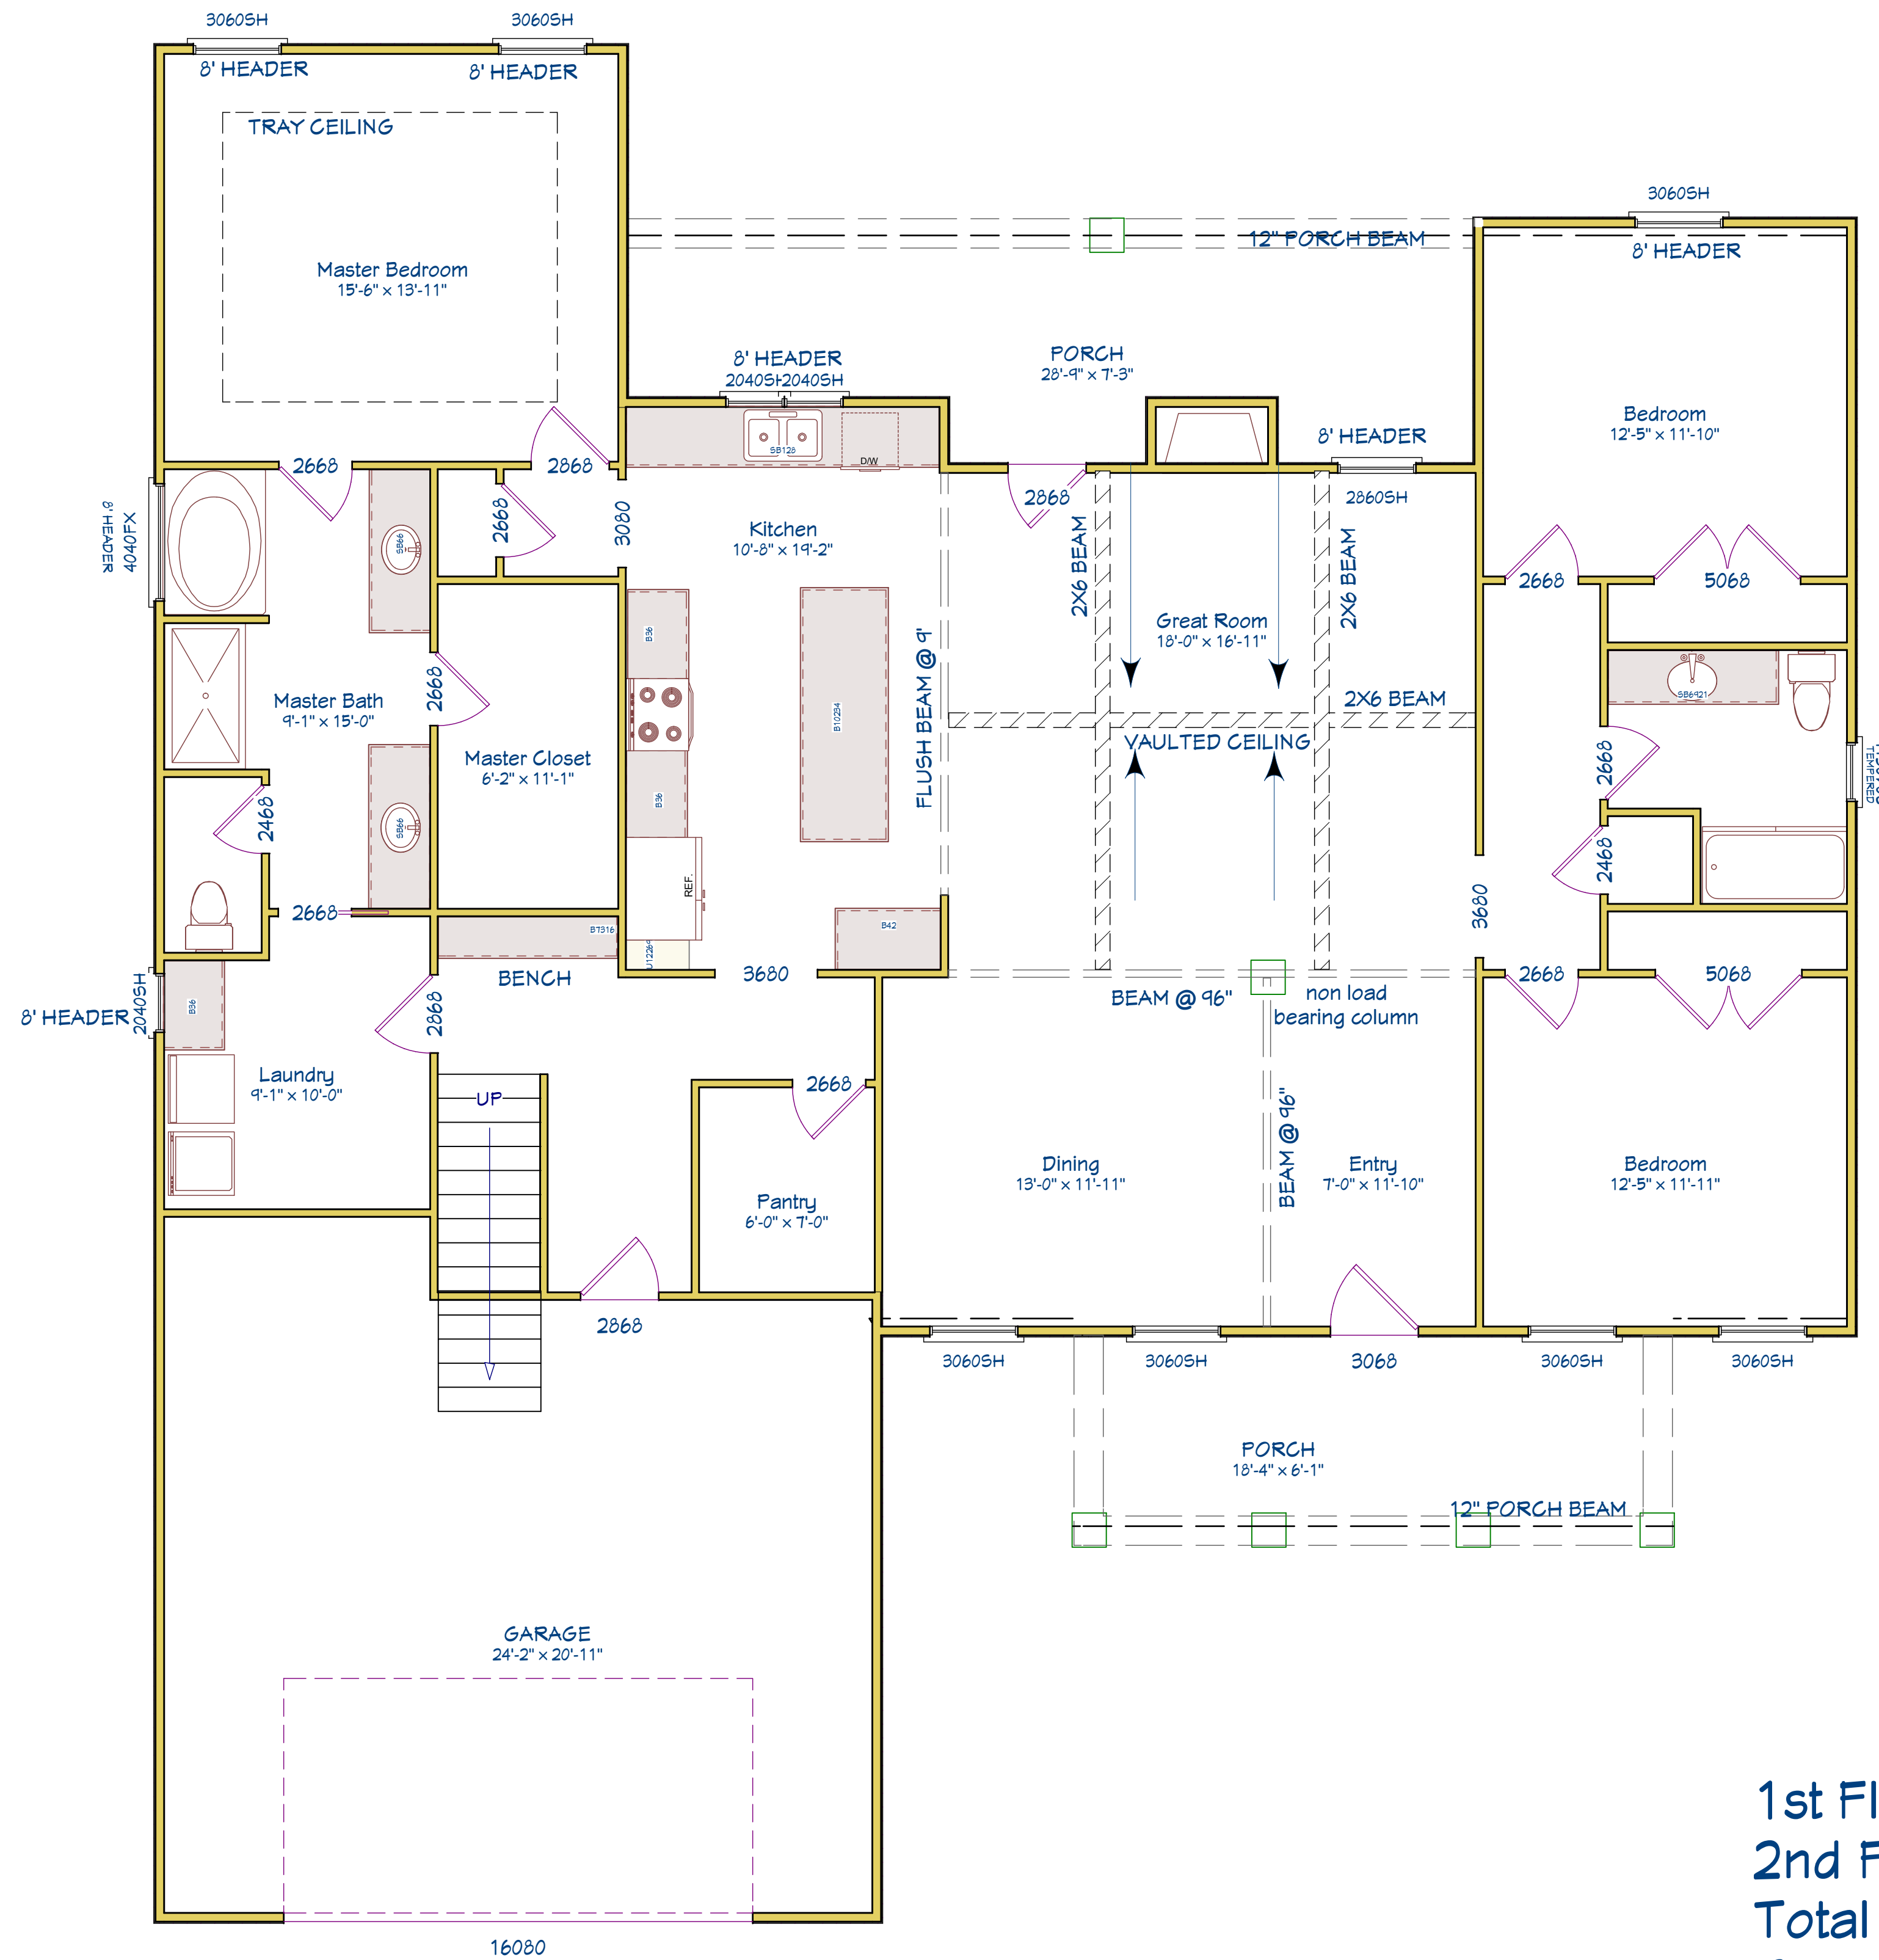

You will be able to select from 11 of our most popular floorplans. Each home can easily be customized using the “House Options” sheet, where you will find all of the available upgrades with the pricing noted upfront.

After selecting the floorplan and any additional options you would like, you will be able to further customize your home with the selections of the finishes throughout the home. All of the selections that you will be choosing from are included in the price of your home. No worries over going over budget! The selection documents will provide you with instructions and pictures.

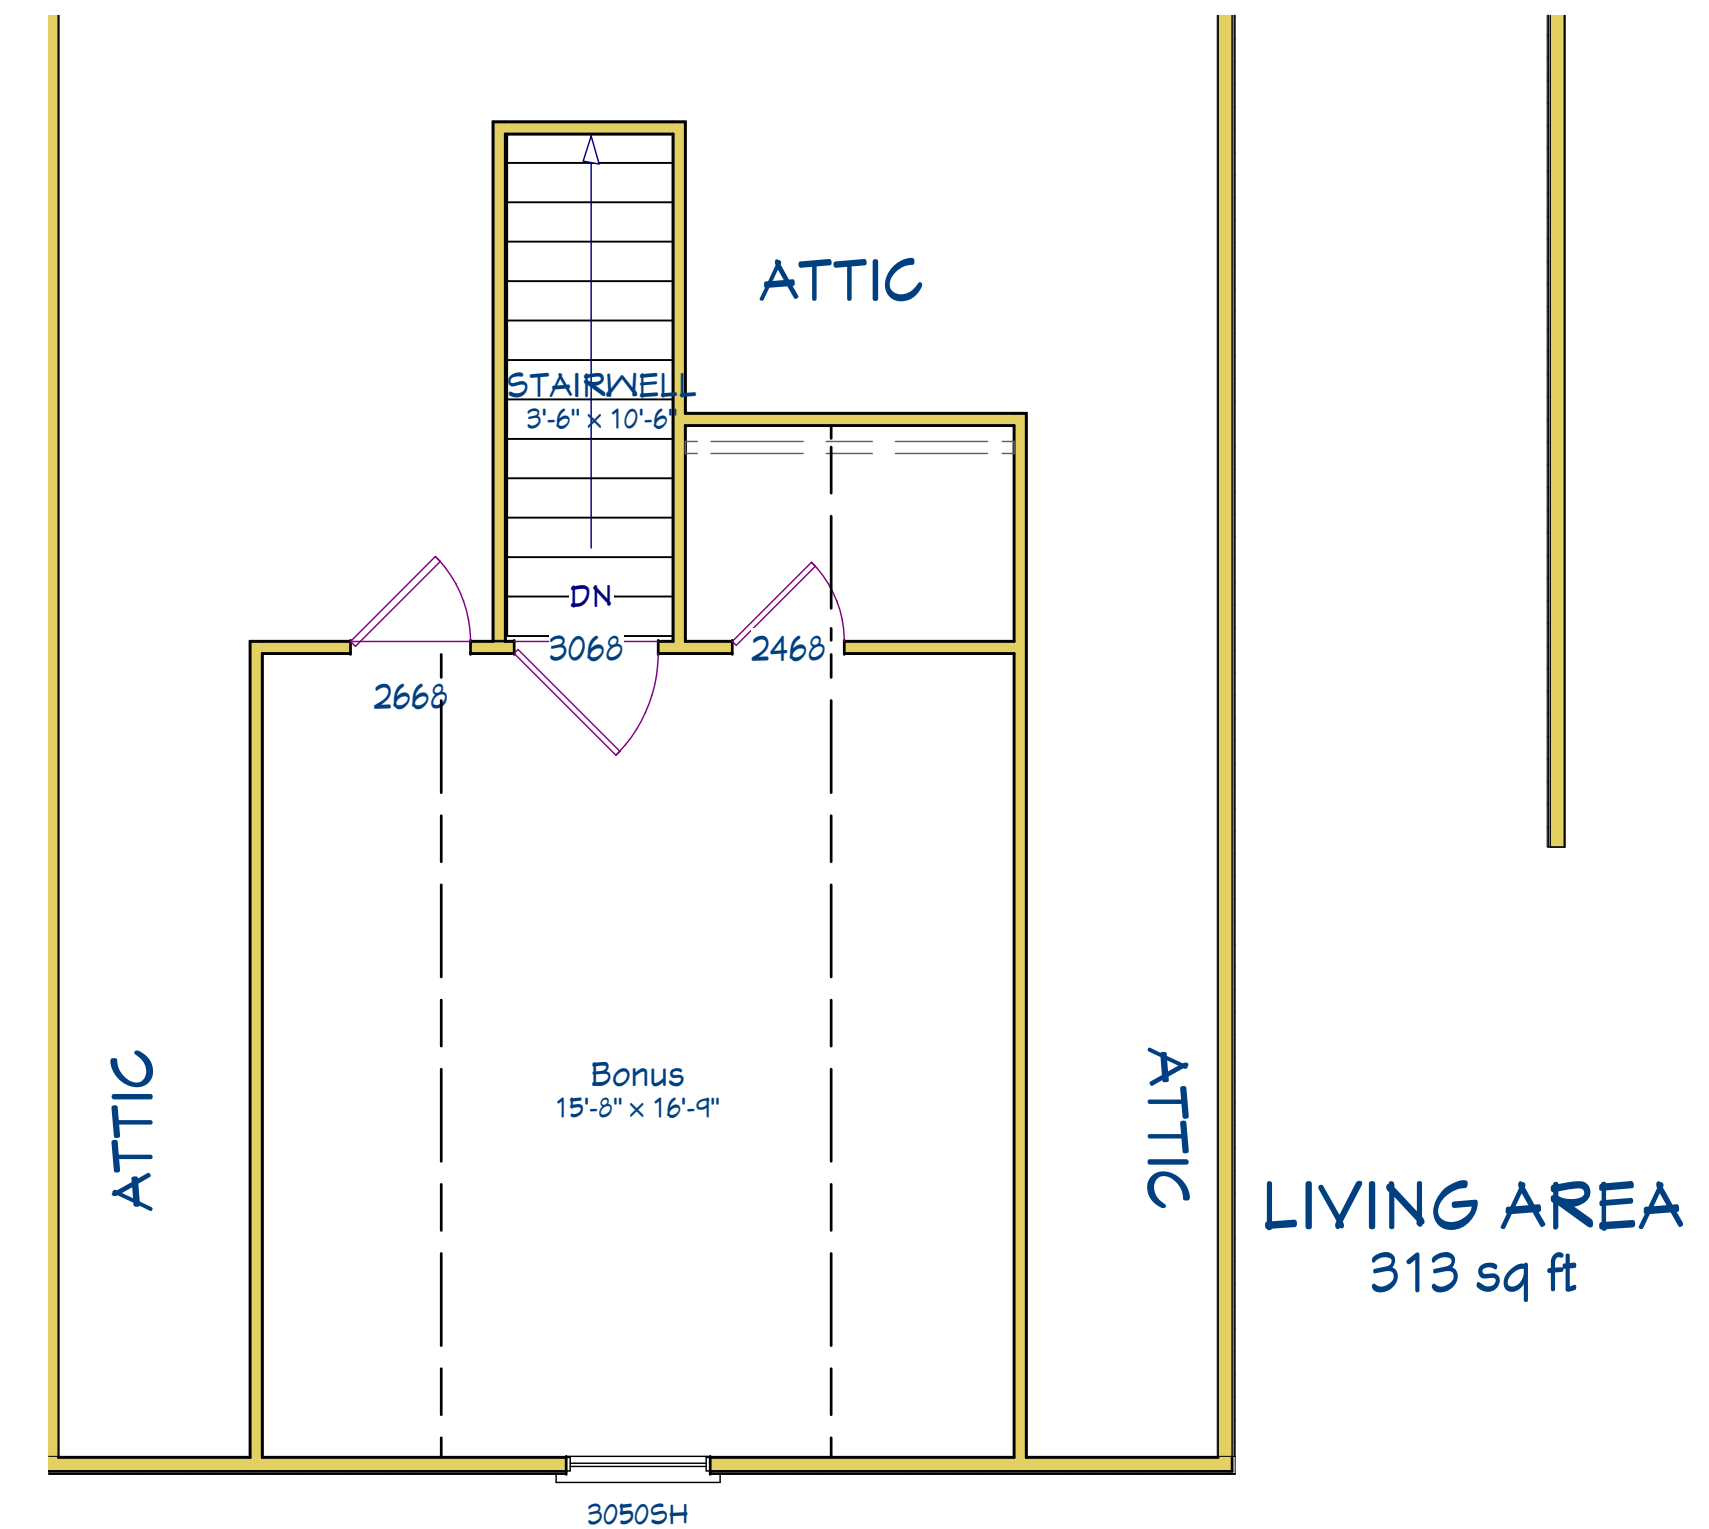

We have 3 color package options for you to choose from; nickel, bronze and black (upgrade). These packages include light fixtures, plumbing, door knobs, bath accessories and cabinet hardware. All other selections are individual selections including; window grids, architectural shingle color, shutters, brick, flooring, interior doors, granite, paint colors and more.

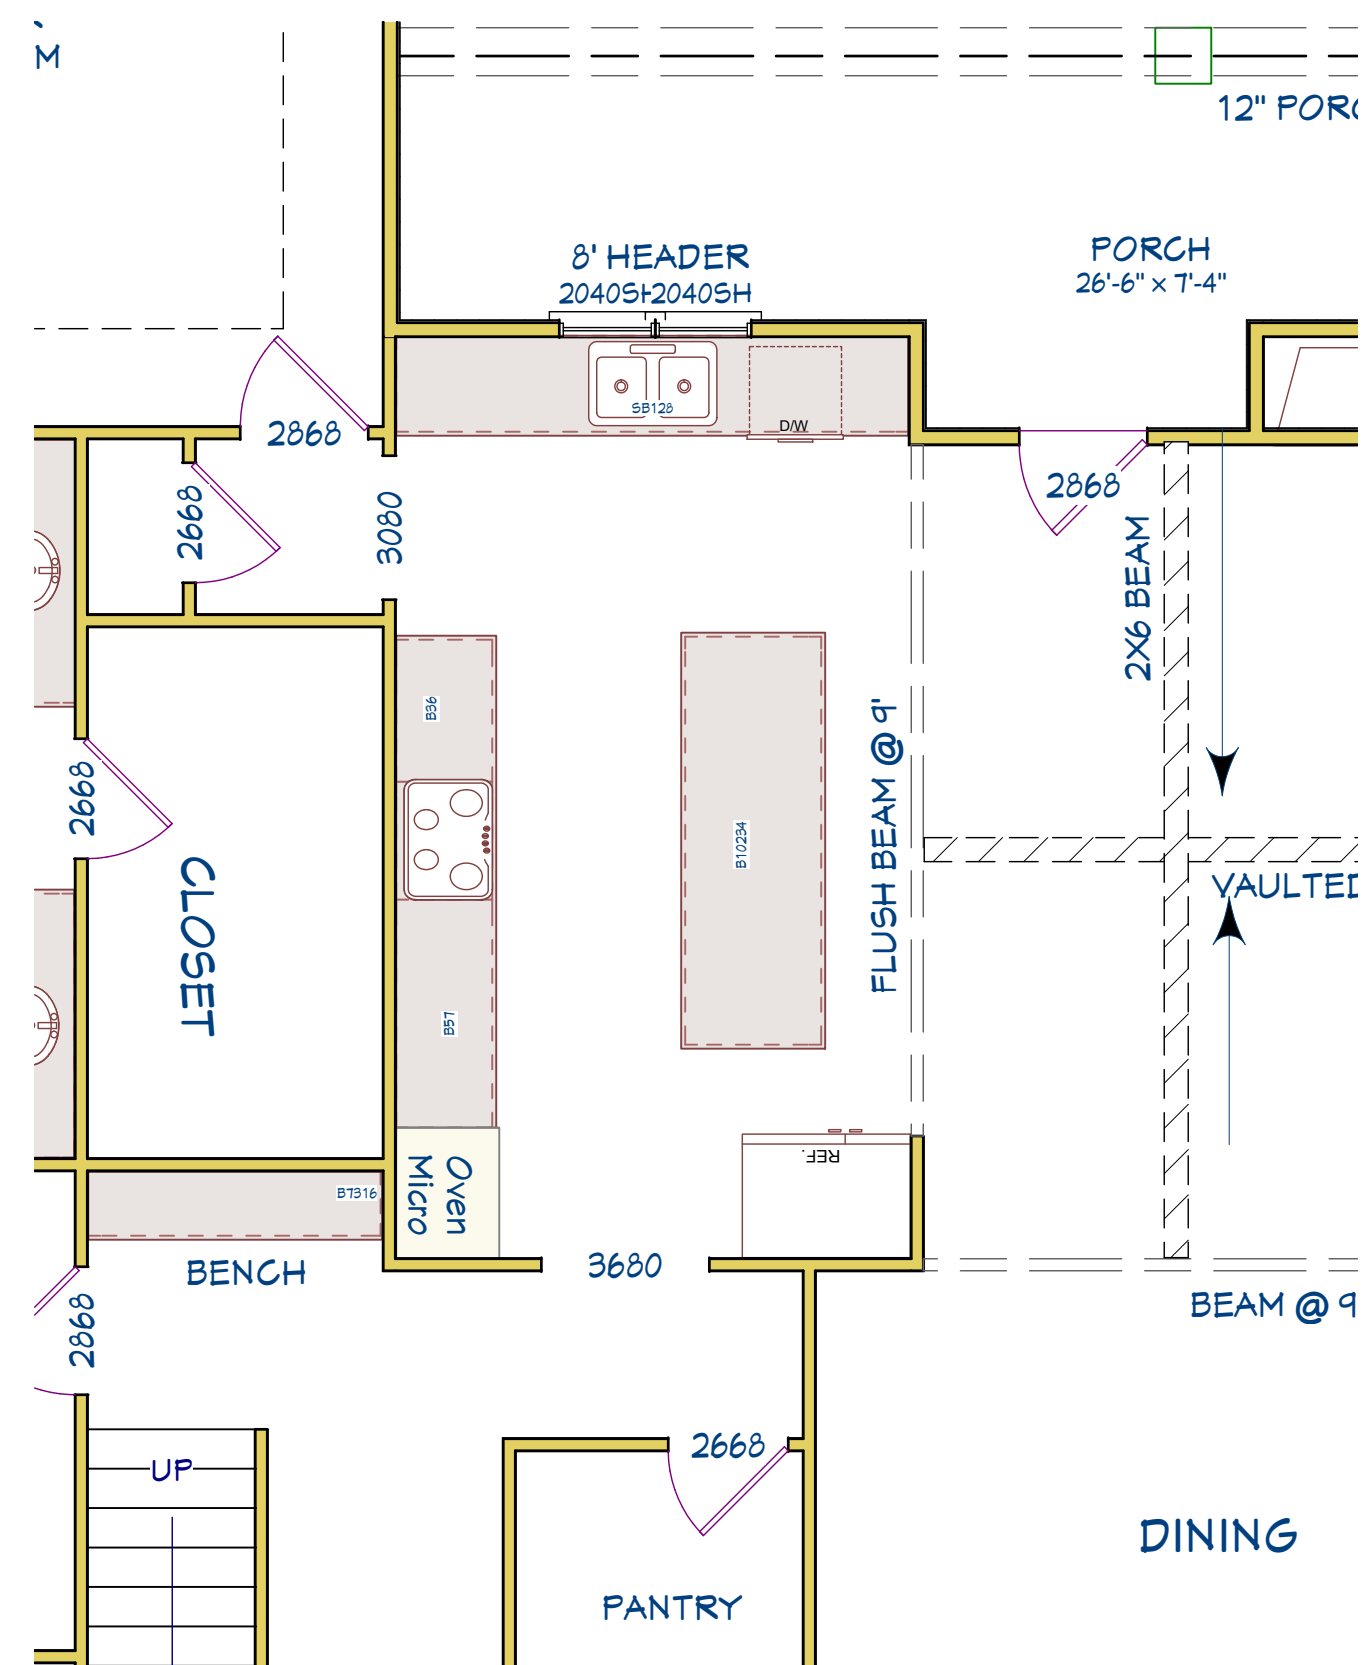

Once you have customized your home with the “House Options” sheet and made your selections you will be ready to sign the contract and we will get started on your home. There is nothing more for you to do but to sit back and enjoy watching your house come together. The construction timeline is 8-10 months from the permit date.

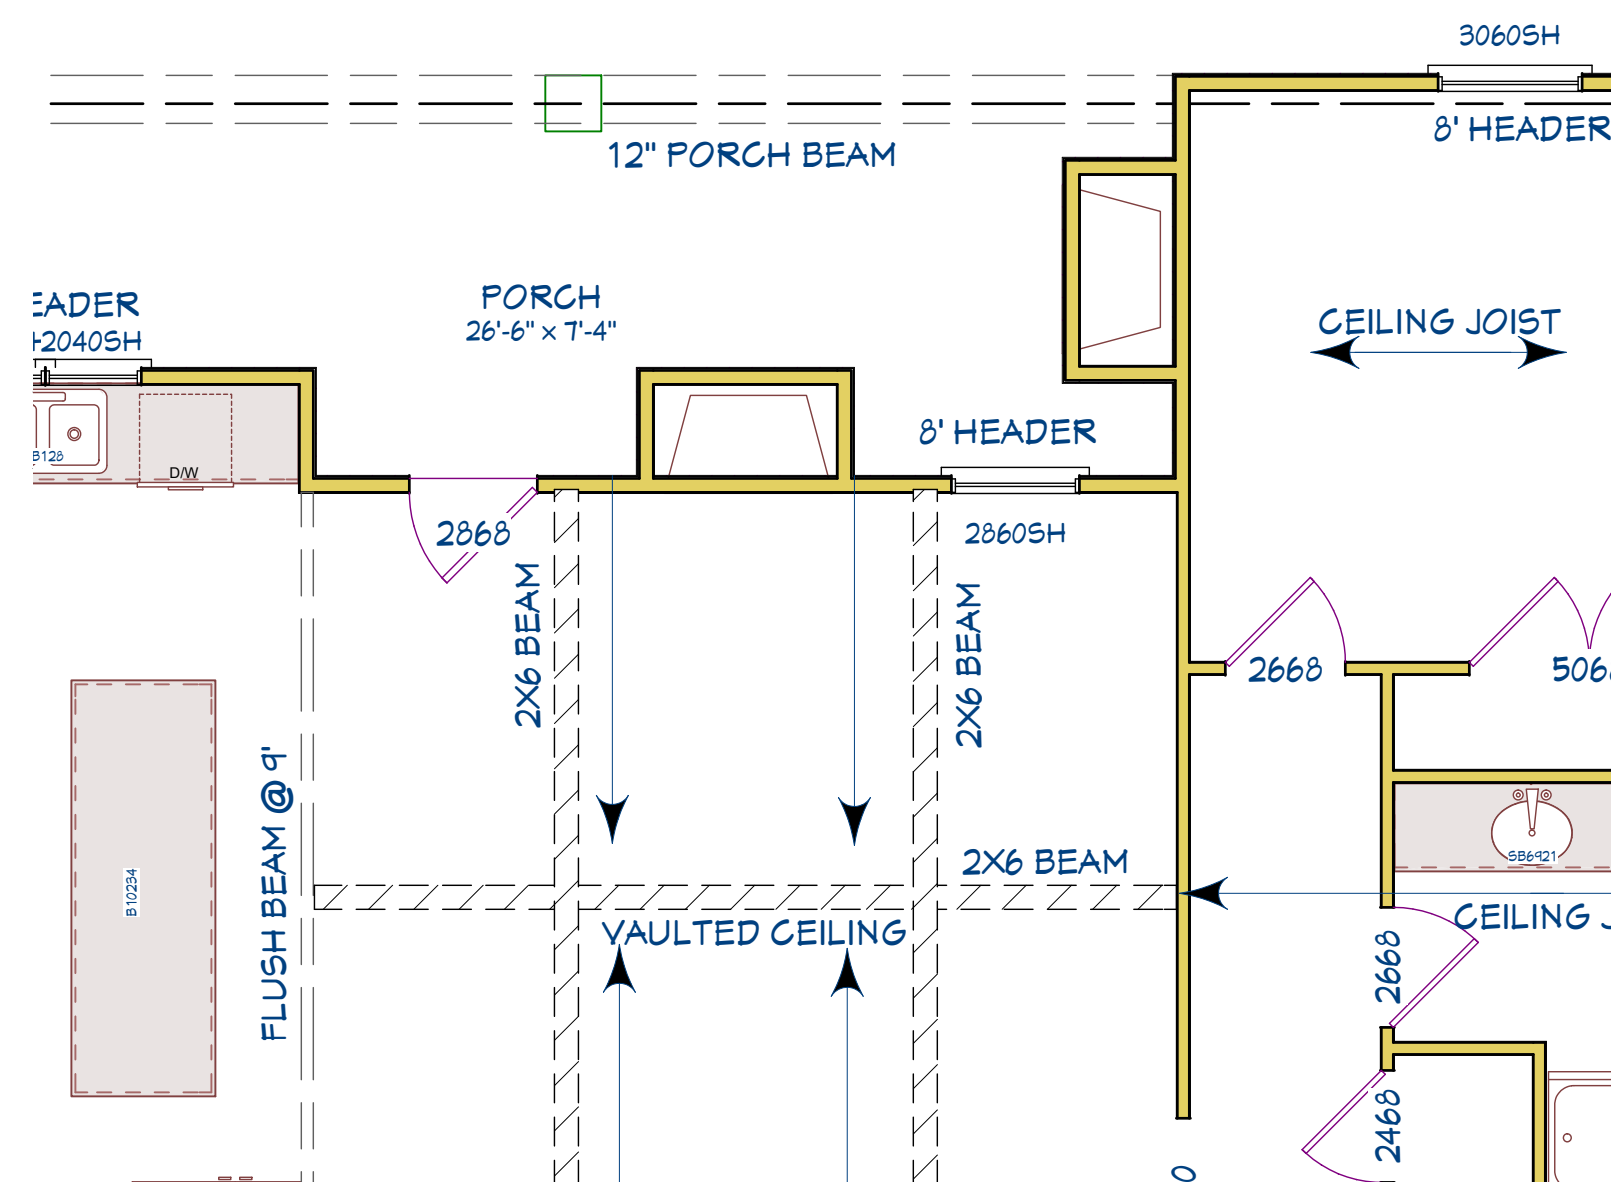

1st Floor	2030
2nd Floor	313
Total Heated	2343
Garage	555
Front Porch	148
Rear Porch	208
Total	3254

Portfolio Home House Upgrades

These house upgrades are a great way to customize your home by adding in some additional features! In our efforts to keep this an easy process, we have compiled a list of common upgrades we see. Each house plan has a corresponding House Upgrade sheet with it, providing you numerous possible additions with pricing readily available. A few upgrades will require more specifics to provide a firm price. If you are interested in additional concrete for the patio or adding a fence, please let your agent know and we will work to get you a price.

A few important things to note for these upgrades:

- We recommend working through these before moving onto the selections for the finishes in the house. This will be helpful in making those selections.
- You may select as many options as you would like from the House Upgrades sheet. If an option is not on the list, it is not an available upgrade to the home.
- All upgrades must be finalized before signing a contract.
- Upgrades cannot be changed or added after the contract has been signed.
- The cost of any upgrade is due at the time of signing the contract and it is nonrefundable with the exception of the additional garages. On the garages, a 50% nonrefundable deposit will be required at the time of signing the contract and it is also nonrefundable.
- If you are happy without including any upgrades to the home, you must initial on the House Upgrade sheet that you are not including any upgrades.

House Upgrades

House Plan: **Pine**

Portfolio Home Selections

At this point you have reviewed the House Options available for your floorplan, which is one great way to customize your home with upgrades. Now it is time to make selections on the finishes that are included with the home. All of the selection options are included with the price of the home.

You will be working through a digital book of selections for the both interior and exterior of the home. A few important things to note:

- Read all information/instructions on each page in full.
- Selections must be submitted in full. Partial selections will not be accepted.
- These selections are final selections. Please be sure you are confident in your submissions.
 - Changes are discouraged and will incur additional fees. Any changes to selections after they have been submitted will be subject to a minimum charge of \$800 plus the cost to make the change. Some items may not be able to be changed after construction has begun.
 - Changes will delay the construction timeline.
- No materials from outside sources or vendors are permitted to be used during construction. You must make selections from the options offered by the builder.
- Review the Specification sheet for the home before starting the selections. The Specification sheet provides the specifics that you will need to refer to while making the selections. For example, the Specification sheet details where LVP and carpet are throughout the home.
- We have included manufacturer names where we felt it would be helpful. We encourage you to spend time researching the options if you would like to see additional photos. This is especially helpful for the granite selections.

Color Package Selection: Select 1 color package. Nickel and bronze are included options. **Black is available as an upgrade. Only select black if you selected the upgrade for black fixtures on the House Options part of your contract.** The color package is carried throughout the home with doorknobs, hinges, light fixtures, plumbing fixtures, bath accessories, and cabinet hardware.

Bronze Package

Napoli granite has a variation of the pattern of gold shades with black veining.

Initial to select
Giallo Ornamental

Giallo Ornamental granite is a veined granite with a creamy white background and dark gray and brown veins.

Initial to select
Viscount White

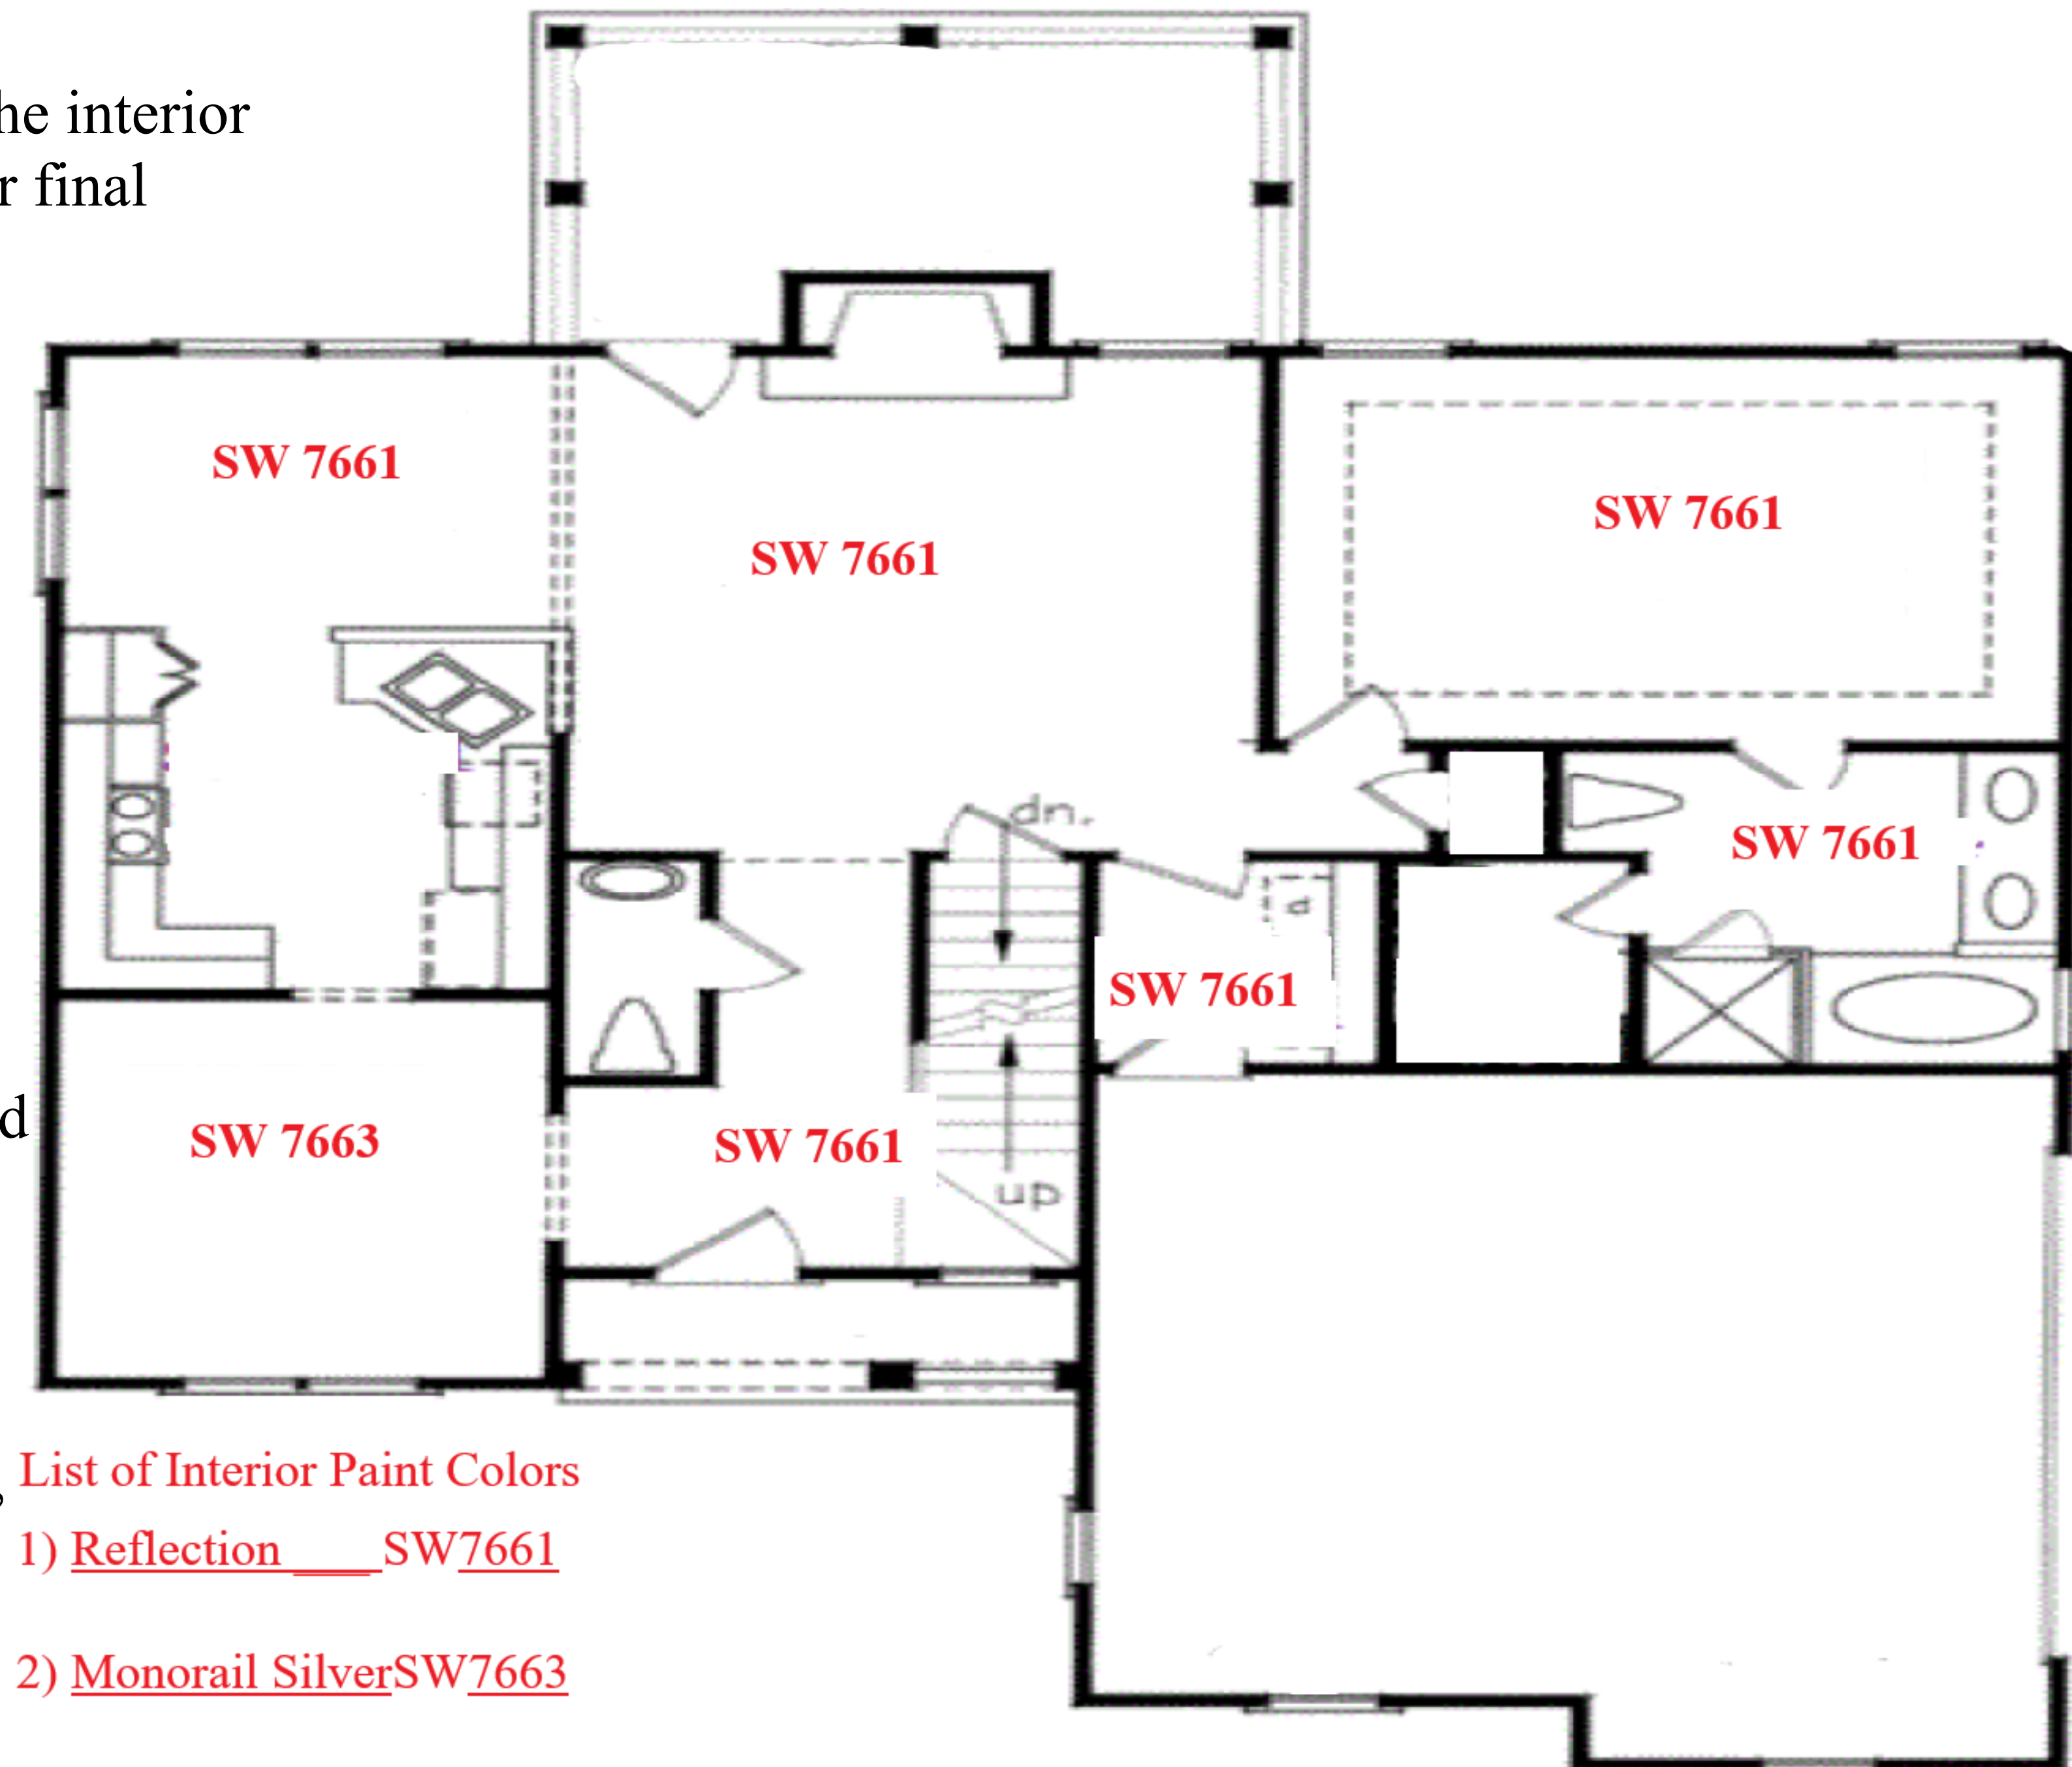

Viscount White granite has gray/black veining that runs through the stone. Some slabs have a pronounced black vein while others have more of a speckled look.

Pine Paint Selections

Paint Selections: Interior and Exterior

We have provided an example of how paint colors are required to be submitted for both the interior and the exterior of the home below. As with the other selections, these colors are your final selections, please be confident in your selections.

- Paint colors must come from Sherwin Williams.
- As stated in your spec sheet, you are allowed 2 interior colors and 2 exterior colors. Dark colors have an additional cost. Please refer to the House Options sheet for specifics on pricing. **If you are unsure if a color you are selecting is considered a dark color, please check with your agent before submitting color selections.**
- The closets, pantry, and garage are painted flat white. This cannot be changed.
- The interior trim color is white (semi-gloss) and the exterior trim color is white (satin). The trim paint cannot be changed.
- **Interior:** The full SW name and number of each color must be typed in where required and the color number must be typed into each room in the space provided as provided in the example below.
- **Exterior:** The full SW name and number of each color must be typed in where required. You have the option of painting the gables a different color than the main body of the house. **The gables have been noted (arrows) on the plans.** The rest of the home is considered the main body. If you want the house to be 1 color, please put the same color for both the main body and the gables, the field cannot be left blank.
